

## SUSTAINABILITY POLICY

**Eco-Club Vision:** Grace Valley Indian School aims to be an institution of excellence, dedicated to producing the leaders of tomorrow by providing students with opportunities to learn more about their surroundings.

**Eco-Club Mission:** -Enhance and support the core curriculum by providing activities and programs that are directly linked with the School Curriculum.

An Eco Club can thus help to extend the boundaries and scope of the formal educational system beyond the classroom and textbook learning and empower students for constructive action.

- Provides students with opportunities to learn more about their surroundings.
- Promotes environmental awareness and develop social and life skills.
- Increases students' awareness of environmental issues and give them the power to make change
- It is a wonderful opportunity to create awareness, build attitudes and help Students take up activities in the real world.
- We the members of the sustainable Eco club pledge to save the earth by reducing, reusing and recycling.
- We use the resources wisely without wasting and saving for future generations.
- The green earth, Green future
- We will protect our green area, we will not pollute at any cost.
- We will not waste water Save water and it will save you.
- Save today, survive tomorrow.
- We will use our resources wisely, today's wastage is tomorrow's shortage
- Be the part of the solution not the part of the pollution.
